Hi Todd – I've been trying to enter info but I realize I've been unclear on where to enter them. I went to /forms and there is a drop down on things to submit but none of them seem relevant to misinformation. Am I in the right place?

Hi all - Carol you should now be fully. When you visit the Twitter help center logged in with your account you should see additional reporting options.

Hi - Carol and I had a sidebar and I requested her account be enrolled. Your email reminds me that the process should have been completed by now - I'll check with our team to make sure she's properly enrolled.

Hi Todd,

I hope you had a good weekend. I'm following up about the partner support portal enrollment for CDC. Does the Twitter account need to be connected to a [cdc.gov](https://www.cdc.gov) email or is any account fine? Also, would there be any issues or complications stemming from flagging COVID misinformation on the portal using the existing [census.gov](https://www.census.gov) accounts that have access? We'll want to have at least some CDC accounts whitelisted, but that backup may be helpful in the short-term.

Let us know any next steps we can take to make sure CDC is all set with the portal.

Thanks,

Chris Lewitzke

Does it need to be the CDC account or my personal? If CDC, I'm going to have someone on staff enroll instead of me.

If personal is OK, it is: [REDACTED]

Hi Carol -

I'd be glad to enroll you in our Partner Support Portal, which allows you a special, expedited reporting flow in the Twitter Help Center. It worked very well with Census colleagues last year.

You need a Twitter account (and to be logged into that account) to access the Partner Support Portal. What account (or accounts) would you like me to enroll?

Best,

TO

Todd – I don't think we have info on how to enroll but we'd be happy to get on if you can send some info.

Thanks.

Hi Carol -

Thanks for sharing this - agree these are important trends to note; a quick scan shows that at least some of these have been previously reviewed and actioned. I will now ask the team to review the others.

Carol, remind me: did you have a chance to enroll in our Partner Support Portal? In the future, that's the best way to get a spreadsheet like this reviewed.

Best.

Todd –

We wanted to point out two issues that we are seeing a great deal of misinfo about – vaccine shedding and microchips. The below are just some example posts. We do plan to post something shortly to address vaccine shedding and I can send that link soon. Our census team copied here, has much more info on it if needed.

Also, we are standing up a BOLO COVID misinformation meeting and inviting all tech platforms. We are shooting for 12pm EST on Friday for our first meeting. I'll include you on the invite but if you'd like to propose an alternative approach or would like to me include others, just let me know.

Thanks!

The ex VP of Pfizer came out predicting that there will be a human depopulation of the vaccinated people in 2 years. An even shorter lifespan after the booster. He believes it's eugenics.
